

WE MAKE YOUR VAN WORK SMARTER

– From intelligent design to peak performance since 1970

Why choose Modul-System

Robust, crash-tested lightweight systems built to last

Modul-System is one of the leading providers of van racking and equipment for commercial vehicles. With a commitment to innovation and quality, Modul-System offers a wide range of products designed to improve the efficiency and productivity of mobile workforces.

Tailored to your needs

We offer vehicle solutions that fit perfectly – whether you have a single vehicle or an entire fleet. With clear drawings, fast delivery, and a modular design, you get a flexible solution that can be easily adapted. The installation is also gentle on the vehicle, helping to preserve its resale value. Need something unique? We can provide that too.

In-house production & global service

With our own factory and manufacturing in Sweden, plus a wide network of service centres worldwide, we are always close at hand. We offer complete solutions – from floors and linings to roof racks, van racking, lighting, inverters, solar panels, auxiliary batteries and livery. Of course, we are certified according to ISO 9001, ISO 14001, and TÜV.

Innovation that makes a difference

With our telematics platform, Modul-Connect, drivers and fleet managers can access real-time data. This transforms how you manage your entire vehicle fleet.

Our patented solutions – including the T-track profile, Modul-Floor, and integrated roof bar lighting – work seamlessly together. High-quality materials like ultra-high-strength steel, aluminium and composites make the system lightweight yet incredibly strong.

The result? Maximum load capacity, long-lasting durability and smarter, more efficient daily operations.

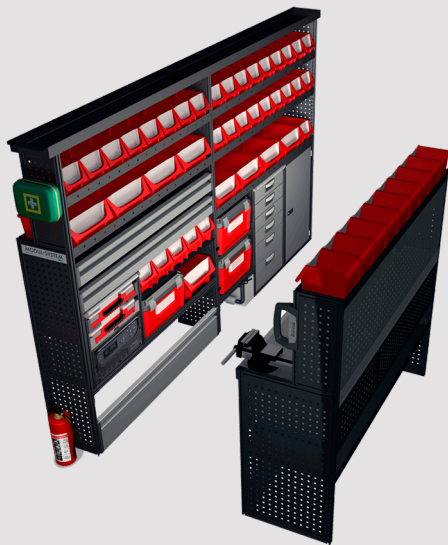

Safety in focus

Our products undergo extensive testing, including crash tests at specialised facilities. They are also tested for load, vibration and long-term durability – so you can feel confident every day.

Product areas

We offer a wide range of products and solutions to make your van work smarter

Modul-System

Modular and robust lightweight racking systems with accessories for light commercial vehicles.

Customised solutions including drawer systems, shelving, workbenches, cabinets and other accessories

Roof System

Van roof racks, pipe carriers & accessories.

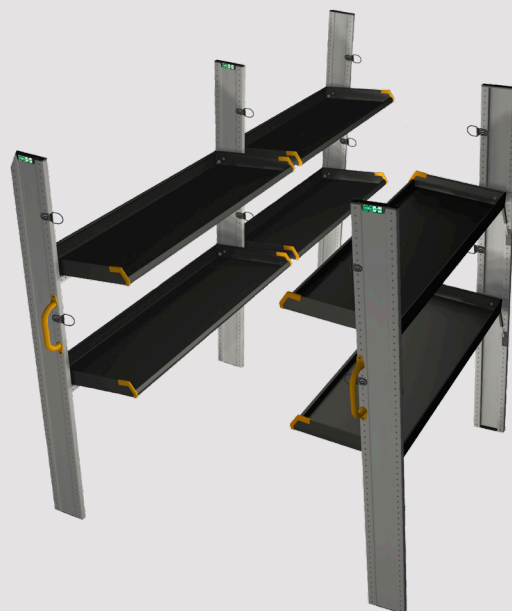

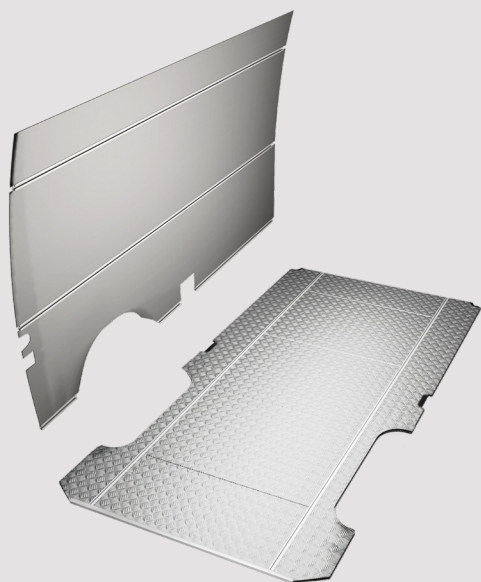

Robust and collision safe roof bar system designed to withstand the stated vehicle roof load. We offer a wide range of lights and accessories for our roof bars.

Modul-Express

Parcel delivery solutions – when the last mile is your first priority.

Lightweight and flexible solutions with folding shelves. The bulkhead with sliding door allows quick and easy access to the cargo area. Accessories like instep handles, cargo bars, loading nets, lashing eyelets and floor stop rails contribute to increased efficiency.

Modul-Floor

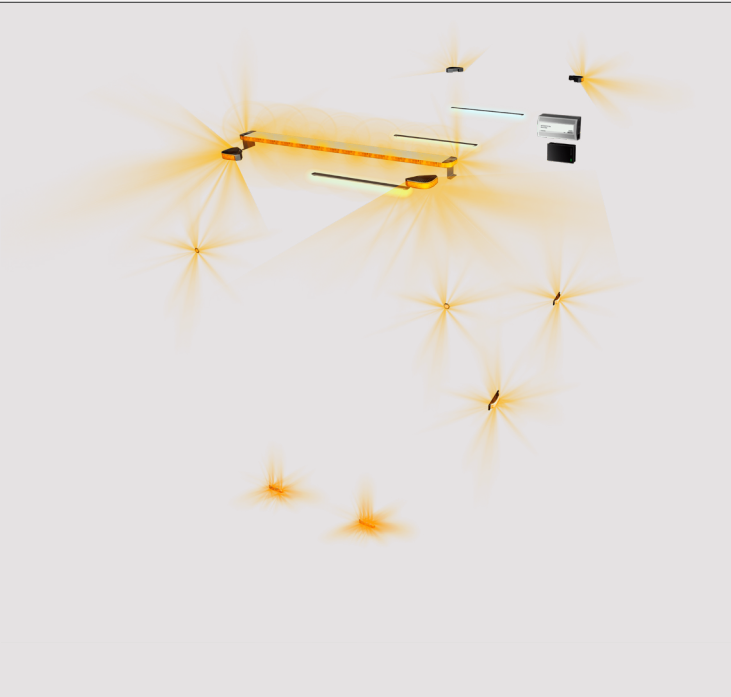

A robust and lightweight flooring, lining and installation system for quick, safe and non-intrusive installation in service vehicles.

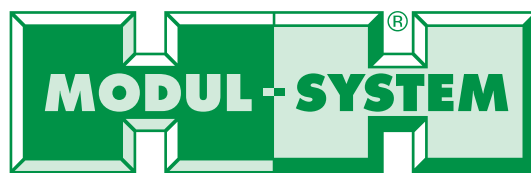

The Modul-Floors' integrated profiles enable quick and safe installation and offer flexible load restraint possibilities.

Modul-Connect®

Telematics platform for your vehicle fleet – gain control, insights and efficiency in every vehicle.

Modul-Connect enables you to control all of the vehicle's auxiliary electrical items wirelessly. We offer a wide range of electrical accessories and system like lighting, inverters, weighing system, asset tracker and much more. If you are looking to monitor and manage your vehicle fleet in one single platform, install Modul-Connect today
