Modul-System

Como cliente da Modul-System pode estar descansado de ter tomado a decisão correcta. Contamos com mais de 40 anos de experiência neste sector e temos vindo a utilizar o nosso programa de segurança durante muitos anos. Actualmente trabalhamos com alguns dos melhores centros de segurança para realizar as provas de choque, como o Centro de Segurança Volvo Cars. No entanto, a experiência só por si não é suficiente. A nossa capacidade de estarmos sempre um passo à frente e aproveitarmos o tempo para entender as necessidades de cada cliente são igualmente importantes. Em cada um dos projectos que desenvolvemos, organizamos reuniões com clientes e utilizadores finais, o que nos permite criar productos novos e inovadores.

Máxima qualidade até ao mínimo detalhe

Os nossos productos estão homologados segundo a norma europeia TUV. Graças à certificação ISO 9001 podemos garantir a qualidade em cada fase, desde o desenvolvimento e fabricação, até à venda, o atendimento ao cliente e a entrega. Assim, podemos oferecer uma garantia de 36 meses em todos os produtos de fabrico próprio. Conseguimos ainda realizar as entregas mais rápidas e fiáveis do sector.

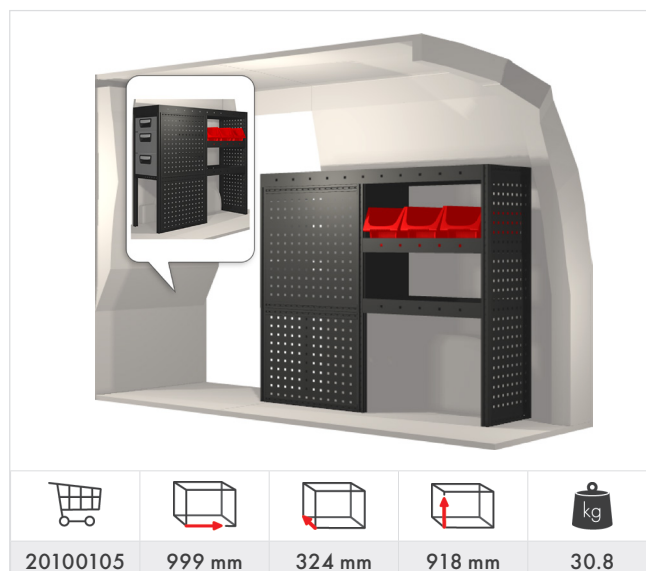

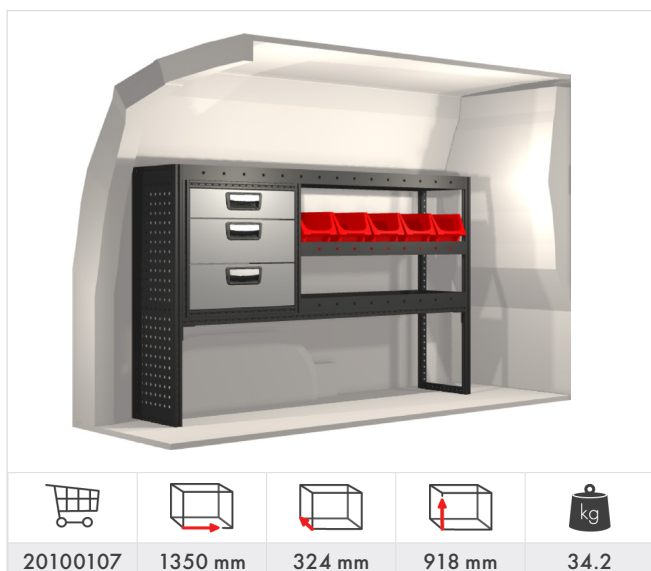

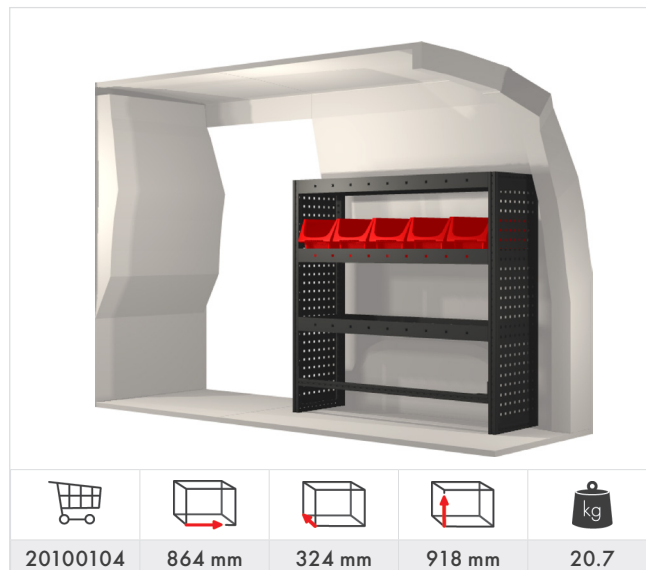

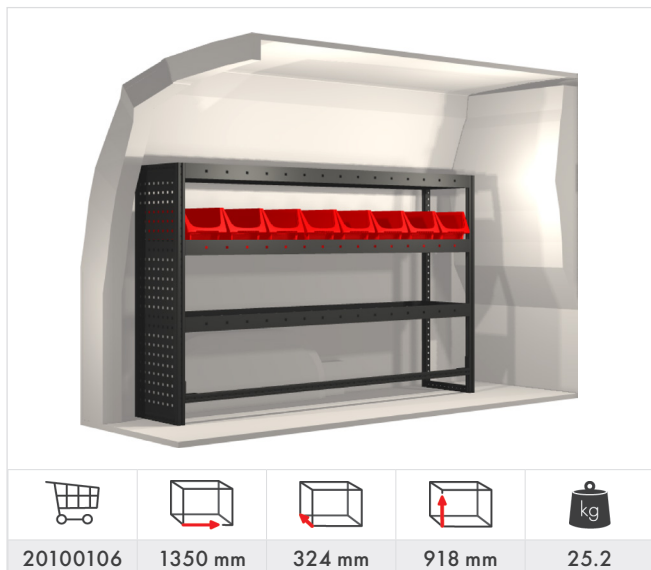

Service centers da Modul-System

Ao longo dos anos criámos uma ampla rede de Service Centers em toda a Europa. Cada Service Center é um distribuidor autorizado com a experiência necessária para satisfazer as suas necessidades específicas, já que os nossos colaboradores contam com um total conhecimento dos nossos produtos e da respectiva instalação. Também temos disponíveis revestimentos de chão e paredes, equipamentos eléctricos, como por exemplo, iluminação, fixadores para mercadoria e cremalheiras de telhado.
